# SCAN TO VIEW FULL DRAWS & DAILY MATCH SCHEDULE

It is our pleasure on behalf of the US Squash Board of Directors and staff to welcome you to the Arlen Specter US Squash Center for the 2023 U.S. Open Squash Championships presented by Truist.

This third year hosting at the Specter Center, and twelfth with our Founding Sponsor, may prove most memorable of all. This historically important event—first hosted in 1954—was raised to renewed prominence more than a decade ago when we brought the U.S. Open to Philadelphia in close partnership with Drexel University.

We are deeply grateful to the sponsors and patrons that make the U.S. Open possible. Truist has stepped up as our presenting sponsor for the third year—we are proud to partner with an organization whose values so closely align with our own, including integrity, community, equality and excellence.

Partnerships with anchor institutions of the region such as Penn Medicine and Comcast Business, along with numerous other sponsors, allow the U.S. Open to remain the country's premier professional event.

Most importantly, this week showcases some of the best athletes ever, with their stunning talent, pure grit and sportsmanship earning our respect and admiration. We welcome the world's top players with pride, including so many American women near the top of the rankings making a run for the title.

We hope you enjoy all the U.S. Open has to offer, and again wish to express our deep gratitude to our sponsors, supporters and partners.

Sincerely,

Kevin D. Klipstein

President & CEO

Albert G. (Sandy) Tierney III

Chair of the Board

### THANK YOU TO OUR GENEROUS 2022 SUPPORTERS

Because experience can't wait.

Drexel's nationally acclaimed cooperative education program allows students to explore a future career by working with renowned companies and organizations across the country and around the world. Through co-op, students build an impressive résumé and professional network before graduation. The majority of these undergraduate positions are full-time and paid, and those that are both carry a median six-month salary of over \$20,000. More importantly, co-op provides students the opportunity to learn alongside the leaders of today as they develop into the leaders of tomorrow.

# BIG IDEAS TEST TECHNOLOGY'S LIMITS. THIS UNIVERSITY IS DISCOVERING NEW POSSIBILITIES AT THE NANOSCALE.

Because potential can't wait.

First identified at Drexel's College of Engineering, MXenes are a new family of nanomaterials that are likely to become the next building block of technology. Now studied across the University and in over 80 countries, MXenes will revolutionize our approach to modern society's impending challenges, such as massive energy storage and conversion, wearable artificial kidneys, printable electronics, water desalination, and countless other areas in need of sustainable solutions. Though tiny, MXenes are poised to make an immeasurable scientific and technological impact.

### AMBITION CAN'T WAIT

# When you start with care, you get a different kind of bank.

Care isn't just what we do at Truist—it's who we are. We make sure people around us feel supported and more in control. We find out what's important to our clients, and make it important to us. We get involved in meaningful ways with our communities. Why? Because real connections and real care create better outcomes. Now that's powerful.
